

2026-2027 Middle School Academic Course Selection

The following tables illustrate the common educational goals pathways of a student's course selections in English, Math, Science, and Social Studies. These pathways assume successful completion of the previous course as well as meeting other prerequisites that may apply. It is not required that the pathway be followed throughout; however, each is a suggested pathway to achieve optimal success during and after high school. This is intended as a planning guide only. To use this document effectively, please select one of the courses in each of the boxes based on the subject area, grade level, and educational goals pathway. Classes with an asterisk (*) will earn high school credit.
